

Company search and industry segmentation: ORBIS

Link to ORBIS via the library website > 'E-resources'

From the front page: Search for a single company or limit to a segment (all companies with more than 1000 employees, all companies within an industry etc.).

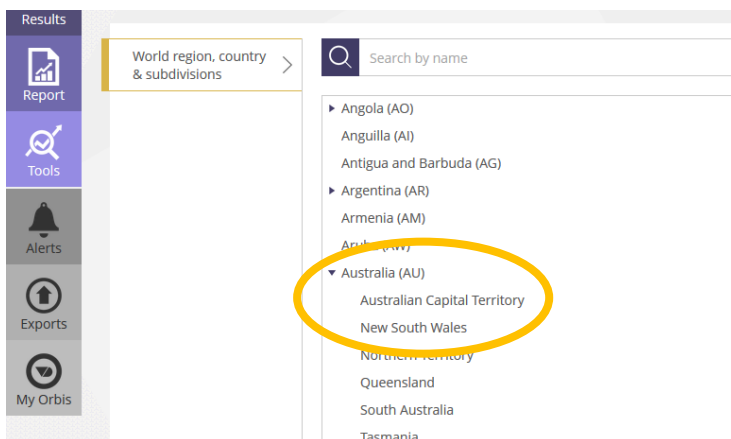

Case: An industry in a country

Choose as a minimum two aspects – country, region, city (location) and industry (activities):

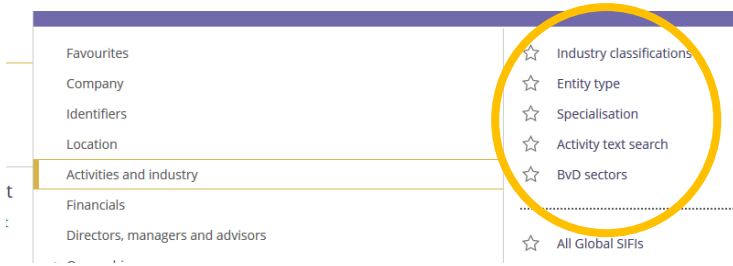

Country:

Choose your country, region or city etc. from one of the sub-menus (press 'ok')

If you'd like to choose a region in a country, **don't** search for the country's name in the search field, but scroll down to the name > press the little arrow left to unfold the national hierarchy.

Industry:

Industry classifications place industries in the official classification schemes. *Activity text search* is a 'free text' search tool extracting info from the company description. Combine the two methods if the classification scheme is too broad

Choose the relevant industry using one of the sub-menus (press 'ok')

Results >

Link to a company to learn more about it. Use the menu right to navigate in content:

The screenshot shows the company profile for VEGA SALMON A/S. The page includes a header with company details, a navigation menu on the right, and a table of financial data. A yellow arrow points to the 'view in Excel' icon in the table header.

	30/06/2016 USD	30/06/2015 USD	30/06/2014 USD	30/06/2013 USD	30/06/2012 USD
Exchange rate: DKK/USD	12 months Local GAAP 0.14923	12 months Local GAAP 0.14998	12 months Local GAAP 0.18319	12 months Local GAAP 0.17554	12 months Local GAAP 0.16937
Operating revenue (Turnover)	137,285,140	134,881,223	104,572,163	61,558,650	n.a.
P/L before tax	-2,166,873	1,207,031	645,551	-3,886,178	5,842,112

Exporting data

Standard information in the result list is very limited. You must add data types yourself.

Click 'add/remove columns' top right – choose the data types you find relevant.

The screenshot shows the 'Add/remove columns' interface in the Orbis application. The interface is divided into three main sections:

- Left Panel:** A navigation menu with icons for Search, Results, Report, Tools, Alerts, Exports, and My Orbis. The 'Tools' icon is highlighted.
- Center Panel:** A list of data types under the heading 'Add all'. The list includes: Operating revenue (Turnover), P/L before tax, P/L for period [=Net income], Cash flow, Total assets, Shareholders funds, Current ratio (x), Profit margin (%), ROE using P/L before tax (%), ROCE using P/L before tax (%), Solvency ratio (Asset based) (%), and Number of employees. Each item has a gear icon to its right.
- Right Panel:** A list of columns to be removed, including: Flags (with a sub-note: 'Inactive companies, Branches, Publicly quoted compa...'), Country ISO code, NACE Rev. 2 Core code (4 digits), Consolidation code, and Last avail. year. Each item has a gear icon to its left and a 'Remove all' button to its right.

At the bottom right of the interface, there are 'Cancel' and 'Apply' buttons.

Press 'Apply'

Export either marked or unmarked to excel by linking to 'Actions' in the top right

The screenshot shows the top bar of the Orbis application. The 'Actions' menu is highlighted with a yellow circle. The 'Actions' menu includes options for 'Currency', 'Save', and 'Excel'. The 'Save' and 'Excel' options are also highlighted with a yellow circle.
