Amendment sheet for the 2015-2019 curriculum of the Financial Management and Services Programme

Amended on 15 September 2015

The Network of the Financial Management and Services Programme has decided to change the 1st external exam as follows:

Organization of the exam

Individual three hour written, external exam regarding the learning goals from first year studies in Business Economics, and an individual 1.5 hour written exam regarding the learning goals from first year studies in Economics (micro).

The exam assignments are prepared by a national exam committee. The scope of the exam is 20 ECTS distributed as follows: Business Economics 15 ECTS and Economics (micro) 5 ECTS.

Assessment criteria

The assessment criteria of the exam are the learning goals of the compulsory programme elements Business Economics and Economics (micro). The learning goals are stated in the joint national part of the curriculum.

The exams are written and evaluated individually according to the 7-point grading scale. Both grades are stated on the diploma. The exam is, however, also evaluated with one total grade which is calculated as a weighted average of the two part exams (according to ECTS – 0.75 for Business Economics and 0.25 for Economics (micro)). The average grade is rounded off to the nearest higher figure if the average is at least midway between two grades. The average must, however, be at least 2.0 without any rounding up.

If the student achieves a total average of at least 02 in the 1st external exam, he/she does not have to take the re-exam in the subject that he/she did not achieve a minimum grade of 02. In case of a re-exam, any grades above 02 from the ordinary exam are transferred to the diploma; see section 7(2) of the Danish Examination Order.
